CHINA-PHARM 2017

Shanghai New International Expo Centre

Shanghai, China, 07-10 Nov. 2017

New market oriented concept ++ CHINA-PHARM and FoodPex return to Shanghai in 2017

To begin with, we would like to thank you all for your substantial support of CHINA-PHARM in the past two decades! With the development of the Chinese pharmaceutical industry, we have grown together and jointly built up an exhibition and communication platform for new products and new technologies of domestic and overseas pharmaceutical machinery and packaging equipment. An exhibition, which has actively pushed forward the GMP transformation of Chinese pharmaceutical enterprises with a great deal of information and business opportunities for domestic and overseas professionals to expand the pharmaceutical market, develop new products and enhance communication.

Our goal is to offer more and more business opportunities to exhibitors and build a one-stop platform for food, pharmaceuticals and cosmetics processing and the entire packaging industry supply chain, targeting China and other Asian markets!

Under the brand name Shanghai World of Packaging (swop), CHINA-PHARM benefitted from the synergy of three additional events in 2015. PacPro Asia, FoodPex and BulkPex were held concurrently for the first time in Shanghai. swop was successfully concluded with a great deal of industry support.

Building on the success of swop 2015 and in order to maintain the synergy of the four-in-one event, CHINA-PHARM 2016 and FoodPex 2016, originally scheduled for December 5-8, 2016, will be postponed until the next edition of **swop** to be held **Nov. 7-10, 2017** in Shanghai. However, the 2016 ISPE-CCFDIE China Conference will take place in Beijing International Convention Center on Oct. 23-25, 2016.

2016 ISPE-CCFDIE China Conference is jointly hosted by China Center for Food and Drug International Exchange of CFDA (CCFDIE), Center for Food and Drug Inspection of CFDA (CFDI), and International Society for Pharmaceutical Engineering (ISPE). This conference has been held for many years and has won the public praise of administrations, industry, and pharmaceutical manufacturers. Every year nearly 700 professionals from domestic and overseas regulatory authorities, industry associations, drug manufacturers and pharmaceutical enterprises attend the conference.
